Military Status: Exempted

Address: Shibin El Koum, Menoufia

Brief

Motivated Backend Developer experienced in PHP and Laravel. Skilled in building APIs, integrating third-party services, optimizing databases, and developing scalable backend systems. Fast learner with strong problem-solving abilities and clean coding practices.

Education

Bachelor's Degree in Power and Electrical Machines Engineering
Menoufia University (Jan 2018 – Jun 2023)
Graduation Project: Smart Elevator using Arduino Controller

Internship

Information Technology Institute (ITI) – Full Stack Web Development Using PHP
May 2024 – September 2024
4-Month Intensive Code Camp (ICC)

Experience

Back-end Developer (PHP / Laravel) **Tattbiqat** – Sep 2024 to May 2025
• Built REST APIs and integrated external services including OpenAI and ZATCA (E-Invoice).
• Developed backend modules with proper validation and API communication.
• Implemented multi-tenant architecture using Laravel tenancy packages.
• Used GitHub and Postman for versioning and API testing.

Back-end Developer (PHP / Laravel) **Emcan** – Jun 2025 to Present
• Built backend features using MVC architecture and reusable components.
• Designed and optimized MySQL database schemas.
• Integrated payment gateways, Shopify, and Oreem services.
• Refactored legacy code and improved project performance.
• Managed deployment, hosting, and environment configurations via cPanel.

Technical Skills

Backend & Tools: PHP, Laravel, MySQL, Microsoft SQL Server, Git & GitHub, cPanel
Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6), jQuery, Angular (TS)

Interpersonal Skills

• Capable of self-learning to acquire new skills and knowledge independently
• Effective teamwork and communication
• Problem-solving and analytical thinking
• Confident in presentations and technical explanation

Projects

Rehlat.me

Laravel, SAAS, MySQL, APIs
Multi-tenant SaaS travel platform supporting trip management, reservations, HR features, and API-based notifications. Built using isolated tenant databases for scalability and security.

Elite Medical Center

Laravel Modules, Healthcare Booking System
Appointment booking platform with modular structure, enabling patient scheduling and administrative management.

Master Solutions

Laravel Modules, E-commerce
E-commerce system supporting product management, orders, and admin dashboards with modular architecture.

Alwaseet Line

Laravel Modules, On-demand Delivery
On-demand delivery and workflow automation platform for government and corporate services, using a modular scalable structure.

Courses

Learn HTML & CSS – Mahara-Tech (May 2024)
Database Fundamentals – Mahara-Tech (June 2024)
